The RFQ flow

Corporate Services is where you request custom events — sports days, yoga sessions, tournaments, wellness weeks. Browse packages grouped by category, customise, submit.

Submitting a request

1. Open **Home** → **Corporate Services**
2. Pick a category tile (Yoga, Inter-Team Tournament, etc.)
3. Choose a tier (**Starter** • **Standard** • **Premium**)
4. Click **Customise this package**
5. Uncheck services you don't need, add optional add-ons with quantities
6. Fill event details: date, time, city, venue, players, spectators, budget hint
7. Submit — status flips to **Submitted** in your **My Requests** page

What happens next

- Admin marks it **Under Review** and prepares a quotation
- You receive an email once the quote is ready and status flips to **Quoted**
- Open the RFQ → review line-by-line pricing → **Accept** or **Reject with a reason**
- Once you accept, an **Invoice** panel appears with **Download PDF + Pay now** (Razorpay)
- You can chat with admin at any time after the first quote arrives — negotiate freely

■ **Heads up.** Pricing stays hidden until admin clicks **Send**. You'll never see internal cost or margin — only the final priced quotation.
