

Kreeda Nation

Everything you need to list grounds, courts, coaches and other on-ground services.

Where Teams Compete, Connect & Grow

1. Who this guide is for

Anyone offering grounds, courts, coaching, refereeing, umpiring, training, photography or videography services for corporate tournaments. Kreeda Nation helps you reach HR teams across companies — your business identity stays private until a booking is confirmed by both you and Kreeda Nation HQ.

1a. What's new — leverage these features

The platform ships new capabilities every few weeks. Here's the short-list you should be actively using right now.

Turn on Offline business — the full suite (Phase 5c)

Open **Vendor dashboard** → **Offline business** tab. This unlocks the full mini-CRM for the customers who book you outside the marketplace — walk-ins, phone bookings, memberships you sell yourself, coaches, batches, expenses and reports. Everything stays on your books, invoiceable and searchable.

- **Business Dashboard** — today's revenue, bookings, walk-in vs online customers, court utilisation, pending payments, today's schedule and fresh venue leads.
- **Bookings + calendar** — one-off or weekly-recurring private bookings with month-view calendar. Rate per hour or flat total. Auto-fills end time from start + hours. Completed bookings are locked (no accidental edits).
- **Customer directory auto-populates** — every walk-in you type into a booking silently creates or reuses a customer row (dedup by phone). Legacy bookings are self-healed on first open.
- **Invoice generator with GSTIN** — save your GSTIN + tax % + footer once; every invoice snapshots details so future edits don't rewrite history. Payment method (cash/UPI/card) captured on mark-paid.
- **WhatsApp booking + invoice share** — green button on every booking + invoice preview. Opens <wa.me/<phone>> pre-filled with the details. Zero-cost.
- **Slot blocks** — maintenance / tournament / private / staff practice. Overlapping bookings are rejected automatically.
- **Coaches + batches** — coach hourly rate, batch capacity, days-of-week, monthly fee.
- **Inventory** — shuttles, balls, jerseys with low-stock threshold and cost/sale price.
- **Expenses + Reports** — categorised expenses (rent, electricity, salary, equipment) roll up into monthly revenue / expense / profit reports with a peak-hours histogram and top-5 customers.
- **Staff logins** — invite a receptionist or coach with their own email + password. Receptionist can't see reports; coach can only manage batches + check-in.

- **QR check-in** — scan or type booking-id or phone, checks in under 5 seconds.
- **QR poster** — every listing has a printable QR poster. Print, laminate, mount at your venue — anyone scanning lands on your listing page ready to book.
- **Memberships** — publish monthly/quarterly plans, customers auto-apply at checkout, you see utilisation bars per member.

The offline→platform bridge (business-model KEY)

Invite your existing offline customers via WhatsApp from the Customers tab. When they sign up through your link, they're stamped as your offline-source customer — **bookings they make with you via the platform skip the platform commission**. You keep 100%. Their bookings at other vendors still generate normal commission for the platform.

Pro tip: bulk-invite regulars → get commission-free bookings AND you get eligible for the platform's Top Referrer promo (20% off your next subscription). Win-win.

2. Create your vendor account

- 1 Open **/vendor/signup** from the footer link “**Become a vendor**”.
- 2 Fill in business name, contact name, city, mobile and a working email.
- 3 Pick your **primary service type** (Ground / Court / Coach / Referee / Umpire / Trainer / Photographer / Videographer). You can still add listings of **any** other type later — this just sets the default.
- 4 Choose a password and click **Create vendor account**.
- 5 You are taken to **/vendor/dashboard**. A yellow “**PENDING APPROVAL**” chip is shown on your business banner until Kreeda Nation HQ verifies you.

Approved? A green ✓ Verified by Kreeda Nation badge appears on every live listing in the marketplace — instant trust signal for HR teams browsing /hire.

Forgot password

Open **/forgot-password**, enter your registered email and submit. A reset link (valid 1 hour) is sent. Set a new password and sign in again. Same flow works for HR and admin accounts.

3. Add a listing (ground, court, coach, etc.)

- 1 On your dashboard click **+ New listing**.
- 2 Pick what you're listing in the “**What are you listing?**” dropdown. The form adapts to your choice.
- 3 Enter title, description, city, price + currency (USD or INR) and price unit (per hour / per session / per match).
- 4 Grounds & courts: enter capacity and tick the sports the venue supports.
- 5 Coaches, referees, umpires, trainers: tick the sports you specialise in.
- 6 **Upload images directly** — each image slot lets you either paste an image URL or click **Upload** to pick a file from your computer (JPEG / PNG / WEBP / GIF, up to 5 MB). 5–10 photos convert ~3× better.

- 7 Click **Save listing**. The listing appears in your dashboard with a **PENDING** tag until Kreeda Nation HQ approves it.

Multiple listings per account

One account can hold any number of listings of any type — e.g. two grounds in different parts of town, a coach service and a photographer package, all under one email. Each listing is reviewed independently.

If you change a listing's type (e.g., a coach profile to a referee profile) it is sent back to Kreeda Nation HQ for re-approval before re-publishing.

4. Handle booking requests (new dual-approval flow)

When an HR team books your listing it appears on your dashboard *and* at **/bookings** (a new **Requests** link in the nav). Status starts as **Awaiting vendor**.

- 1 Review the venue, requested date, start time and total **hours** the HR team picked. Notes from HR appear below.
- 2 Click **Accept** or **Decline**. Status changes to **Vendor accepted** or **Vendor declined**. Kreeda Nation HQ is notified.
- 3 An admin then finalises: **Confirmed by Kreeda Nation** or **Rejected by Kreeda Nation**. The admin can override your decision in either direction.
- 4 Once a booking is in a final state (Confirmed / Rejected / Cancelled) you cannot re-touch it — only admin can. This is intentional to protect the audit trail.

Every status change appends to a notifications log on the booking — both you and the HR team see the most recent message and who made it. Email notifications are coming soon; right now the log is in-app + backend logs.

5. Pricing & payouts

Currency	USD or INR — set per listing
Pricing model	Flat price × price unit (per hour / per match / per session)
Total on booking	HR picks date + start time + hours; we compute total = price × hours
Discounts	Add seasonal pricing by editing each listing
Payments	Handled offline between you and the HR team for now; Stripe checkout is on the road

6. Common questions

How long does approval take?

Usually under 24 hours. You'll see your listing go from PENDING → LIVE in the dashboard.

Can I temporarily hide a listing?

Yes — edit the listing and uncheck **Active**, or ask Kreeda Nation HQ to “Unpublish”. Bookings already in flight are unaffected.

Can multiple staff log in to the same vendor account?

Today it's one email per business. Team logins are on the roadmap.

7. Verified vendor badge

Once Kreeda Nation HQ approves your business AND you've collected at least one published review, a green ✓ **Verified** badge appears on every live listing in /hire. Vendors with the badge convert ~2× better than unbadged ones — it tells HR teams a real human has played at your venue.

Want the badge faster? After a confirmed booking, ask the HR team to leave a quick review from /bookings → Past → Leave review. You can also encourage them in person.

8. Happy-hour pricing & venue schedules

Ground / court listings support **Venue schedules** for slot-based bookings. Open a listing → **Schedule** tab to:

- Add weekly availability windows (Mon–Sun, start / end time, slot length).
- Set **Happy-hour pricing** — different price during off-peak hours (e.g., 50% off 11:00–15:00 weekdays).
- Block specific dates (maintenance, weather, private events).

Happy-hour discounts are calculated automatically when HR picks a start time that falls inside your happy-hour window — they see the discounted total live.

9. Cancellation & reschedule policies

Each listing has its own **Policy editor** (Edit listing → **Policies** section). You decide:

Cancel window	How many hours before slot start can HR cancel for free / partial / no refund.
Reschedule window	Until how close to slot start HR can reschedule to another date.
Free reschedules	Number of free reschedules per booking. After that you can charge a fee.

Once an HR cancels or reschedules, the system honours your policy — no need to negotiate every time. Final amount and refund are computed automatically and shown in the booking timeline.

10. Reviews — your reputation engine

After every confirmed booking, the HR team can leave a 1–5★ review on /bookings → **Past**. Reviews flow through a two-step approval pipeline:

- 1 **You see it first** at /vendor/dashboard → **Reviews**. Approve to send to HQ, or flag if it is abusive / off-topic.

- 2 Kreeda Nation HQ publishes the review on your public listing OR rejects it if flagged.

Your aggregate rating (average ★ + count) is shown on every marketplace listing once you have ≥1 published review — the same number that powers the Verified badge eligibility.

11. What's new — approval emails & rejection reasons

Kreeda Nation HQ approval decisions now arrive in your inbox automatically. No need to log in to check status.

Vendor account approval

When HQ approves your vendor business, you get an email titled “**Your vendor account has been approved**” with a one-click button to your dashboard. If HQ rejects with a reason, the email includes that reason verbatim so you know exactly what to fix before resubmitting.

Listing approval

Each listing is reviewed independently. You'll receive a separate email per listing — “**Your listing '<title>' has been approved**” or rejected with the admin's note. Edit the listing in your dashboard and it goes back into the queue.

If a rejection email never arrives, check spam and add admin@kreedanation.com to your safe-senders list.

12. Membership packages (new — Phase 1)

Offer recurring subscriptions to HR teams & players — monthly / quarterly / annual access to your grounds, courts or coaching services. Set it up once, get paid every cycle.

- 1 Open **/vendor/dashboard** → **Memberships** tab.
- 2 Click **+ New plan**. Enter plan name, plan type (**Monthly / Quarterly / Annual / Custom**), price + currency, validity in days, and a short description of what's included (e.g., 'Unlimited weekday slots, 5 free reschedules').
- 3 Pick which listings this membership covers — leave blank to apply across all your listings.
- 4 Click **Save plan**. It appears on your public vendor page once activated, with a **SUBSCRIBE** CTA for HR teams.
- 5 Manage active subscribers from the same tab — see who is on which plan, their renewal date and their booking history.

Bundle happy-hour pricing with a quarterly plan to maximise retention — e.g., '■15,000/quarter, unlimited weekday slots before 5 PM'.

Payment collection is on the way — Razorpay integration is in progress. Until it ships, mark subscribers paid manually after offline payment. The plan list, validity tracking and renewal dates are already live.

13. Verified badge (refresh)

The ✓ **Verified by Kreeda Nation** badge now also appears in the marketplace listings carousel and on every vendor profile card across **/hire** and the new **/sponsorships** discovery surface. Approved vendors with ≥ 1 published review continue to get the badge automatically — no extra action needed.

*Need help? Email hello@kreedanation.io — we usually reply within one business day. Forgot your password? Visit **/forgot-password** (works for HR, vendors and admins) or **/players/forgot-password** for player accounts. Tip: once you sign in, this guide is one click away from the **top navigation bar** — no need to dig through the footer.*
