

Kreeda Nation

Your portable corporate-sports profile — set it up once, carry it across employers.

Where Teams Compete, Connect & Grow

1. What you get with a player account

Your Kreeda Nation profile is your **universal corporate-sports identity**. Even when you change companies, your stats, photos and Cric Heroes link travel with you.

- One profile, every tournament you ever play.
- Searchable by name, city, mobile — recruiters & captains can find you.
- Profile view counter shows how often other players check you out.
- Link your **Cric Heroes** profile so detailed match stats are one click away.

2. HOW TO — task recipes

Quick recipes for the tasks you'll do every week. Each recipe lists the exact steps — from which page to open, to which button to click. Bookmark this section and share it with your team.

How to host your own local match (new)

- 1 Open **/admin** (or tap **Host match** in the top nav).
- 2 Fill in the match name, sport, format (round-robin / knockout) and venue.
- 3 Toggle **Show on the public events page** ON to let random players discover it, or OFF for a private match reachable only via direct link + your profile.
- 4 Click **Create local match** — you're taken to the event page with full manage rights.
- 5 In the **Teams** tab click **+ Team** to create teams, then **Add member** → **Quick add** to invite players who aren't on Kreeda Nation yet (we create a real profile they can log into later).
- 6 Click **Generate fixtures** to build the schedule. Open a fixture to run live scoring.
- 7 After a match completes, click **Add hero image & awards** on the fixture card to upload a winning-moment photo + record Player of the Match / Best Batter / Best Bowler.
- 8 Scroll to the **PHOTOS** section at the bottom and click **Upload photo** to build a post-tournament gallery — anyone opening the event sees it in a lightbox.

How to sign up (no company email required)

- 1 Open **/players/signup**.
- 2 Enter your mobile, a strong password and pick any sports you play.
- 3 Verify the OTP that lands in your inbox.

- 4 You're in — profile lives at **/players/me**, share it publicly at **/players/<you>**.

How to book a venue (one-off)

- 1 Open **/hire**. Pick your city + sport chips at the top — no login needed to browse.
- 2 Tap the listing card that suits you. If you're not signed in you'll be bounced to **/login** here.
- 3 Fill the booking form: date, start time, hours (end-time auto-fills). If you have a matching membership, tick **Apply your membership**.
- 4 Click **Request booking**. Vendor gets notified; you land on **/bookings** where the row shows status *pending*.
- 5 When the venue confirms it turns **Approved**. You'll get an email + it shows in the schedule on your dashboard.

How to book weekly (every Saturday for a month)

- 1 Follow the booking recipe above, then tick **Book this weekly** in the modal.
- 2 Pick an end date (e.g. 4 weeks later). The system creates ONE booking per week automatically (up to 52 occurrences).
- 3 In **/bookings** every occurrence appears as its own row with a **Weekly series** badge — cancel or reschedule any single week without touching the rest.

How to cancel or reschedule a booking

- 1 Open **/bookings**. Find the row you want to change (only bookings still in *pending* / *approved* can be modified — completed ones are read-only).
- 2 Click **Cancel** to drop the slot (refund follows the venue's policy).
- 3 Or click **Reschedule** — pick a new date + time + hours, submit. The vendor's calendar updates in real time.

How to renew your membership

- 1 Open **/my-memberships**.
- 2 Active passes ≤7 days from expiry show a **Renew now** button; already-expired ones show **Renew pass**.
- 3 Tap it → you jump straight to that venue's public listing page → complete checkout to extend.

How to share a venue with your team

- 1 On **/hire**, tap the yellow **View details** → link on any listing card.
- 2 The public detail page opens. Scroll to **Share this venue** and tap WhatsApp, X or Copy.
- 3 The recipient gets a preview card (photo + city + price) inside the chat app — one tap and they're on the venue page.

How to share an event with viewers

- 1 Open any event page — the **Share this event** row lives above the tabs (WhatsApp, X, Copy).
- 2 Tap the button that fits — the pre-filled message auto-includes the event name + venue + link.

- 3 If the organiser published a contact number, tap **WhatsApp the organiser** to DM them directly to enter your team.

1a. What's new — leverage these features

The platform ships new capabilities every few weeks. Here's the short-list you should be actively using right now.

■ Host your own local matches

You can now run informal neighborhood tournaments directly from **/admin** (or the new **Host match** nav link). Set up teams, generate fixtures, run live scoring — the exact same tools HR teams use, no approval needed. Toggle **Show on public events page** to control whether random players can find and join, or keep the match private to a direct link.

- **Quick-add non-members** — teammates without an account get a real player profile they can later log in and edit.
- **Photo gallery per event** — upload highlights via the **PHOTOS** section on the event page; anyone can view in a lightbox.
- **Hero image & awards per fixture** — when a match completes, add a photo of the winning moment plus Player of the Match / Best Batter / Best Bowler / Top Scorer.
- **Local matches on your profile** — both matches you HOSTED and matches you PLAYED appear on **/players/me** with contribution chips (matches, MOM count, etc.).
- Look for the green **LOCAL MATCH** badge on any event page or on the events list to tell them apart from corporate/organiser tournaments.

You can now hire vendors too

You no longer need a company account to book a ground or coach. Head to **/hire** and browse venues + coaches in your city — **no sign-in required to browse**. You only sign in when you tap **Book this venue**. Bookings appear under **My bookings** on your dashboard.

- **Buy memberships** — venues sell monthly / quarterly passes. Apply them automatically at checkout to unlock discounted rates or bundled hours.
- **Manage every booking** — the **/bookings** page shows every venue slot you've booked. While a booking is still active you can **Cancel** (refund follows the venue's policy) or **Reschedule** to a different date/time. Completed bookings turn read-only so history stays intact.
- **Renew memberships in one tap** — the **/my-memberships** page shows every pass you hold. Active + expired passes get a **Renew** button that jumps straight to the venue's listing page. Passes expiring within 7 days show a highlighted **Renew now**.
- **Share a venue you love** — every listing has a **/vendor-listing/<id>** public page with one-tap WhatsApp / X / Copy sharing. Send it to teammates so they can book without hunting through search.
- **Universal profile** — your stats travel with you across employers. Update it once, share the profile URL anywhere.
- **Multi-sport tracking** — add football, cricket, badminton, chess and more to a single profile with per-sport stats and match history.

If you're the captain of a team, ask your HR to add you as a captain on the event page — you'll unlock member management for that team.

2. Sign up

- 1 Open **/players/signup** from the footer link “**Player account**”.
- 2 Enter your full name, mobile number, password.
- 3 Pick your current company from the dropdown. If your company isn't listed yet, ask your HR team to onboard at **/signup-company** first.
- 4 Click **Create player account** — you land straight in your profile editor at **/players/me**.

Your mobile number is your login ID. It's only fully visible to you — other users see “.... 1234” unless they're you.

Already added by an HR / captain

If your HR team or a team captain quick-added you, you'll receive (or be shown) a temporary password along with a login email like `player_+91xxxxxxxxxx@players.playsphere.app`. Sign in at **/players/login**, then open **/players/me** to set a real email + change the password.

Forgot password

Open **/players/forgot-password**, enter the email on your profile. We send a reset link valid for 1 hour. Land on **/players/reset-password?token=...**, set a new password and sign in.

3. Complete your profile

Profiles are heavily skewed toward cricket but work for any sport.

Photo	Click Upload or paste a public image URL
Email	Add a real email so you can use forgot-password if needed
City, DOB	Where you're based and your date of birth
Playing role	Batsman / Bowler / All-rounder / Wicket-keeper / Any
Batting hand	Right or Left
Bowling style	Right-arm-fast / spin / etc.
Jersey number	Optional integer; shown on your card
Height & weight	Optional
Cric Heroes link	Paste your cricheroes.com profile URL — appears as a button on your public page
Bio	A short pitch about yourself

4. Changing company

Your profile is portable. When you switch jobs:

- 1 Open **/players/me**.
- 2 Use the **Company** dropdown and pick your new employer.
- 3 Click **Save profile**. Your stats, history, photo and Cric Heroes link all stay; only your company badge updates.

If your new employer isn't on Kreeda Nation yet, you can stay on "Independent" until they onboard — your profile keeps working.

5. Find other players

- 1 Open **/players/profiles** from the nav ("Find players").
- 2 Search by name, city or partial mobile number.
- 3 Click any card to view their full profile.
- 4 Your own profile shows a **view counter** — it increments only when a *different* player visits you.

6. Joining a team (captain or HR add)

Teams are now event-scoped. When an HR team or platform admin creates a tournament they:

- 1 Create teams inside the event.
- 2 Assign a **captain** — that's a registered player profile.
- 3 Add members — they can pick you from the registered roster, or quick-add you (which creates a profile + sends you credentials).

If you're a **captain**, the event's Teams tab is visible to you and you can add members to *your* team — same Pick / Quick-add options HR sees.

Tournament teams are managed by HR / captain. If you joined the wrong company by mistake, fix it under **/players/me** — your roster card on existing teams stays where HR placed it.

6b. Host your OWN local match (new)

You don't need to wait for HR to run a tournament. Any player can create informal neighborhood matches from the top-nav **Host match** link.

- 1 Open **/admin** (or tap **Host match** in the top nav).
- 2 Fill in the match name, sport, format (round-robin or knockout), venue.
- 3 Toggle **Show on the public events page** — leave ON if you want random players to find and join, or turn OFF for a private match reachable only via the direct link or your profile.
- 4 Click **Create local match**. You land on **/events/{id}** with full manage rights (add teams, invite members, generate fixtures, run live scoring — same tools HR uses).

Add players who aren't on Kreeda Nation yet

Open the **Teams** tab → **Add member** → **Quick add**. Enter their name + mobile. We create a real player profile for them (they can log in later with the auto-generated credentials shown to you) — no stub accounts, they inherit the same profile all other players use.

After the match — hero image, awards & photo gallery

- 1 When a fixture is **completed**, the fixture card shows an **Add hero image & awards** button. Click it to upload a photo of the winning moment and record awards (Player of the Match, Best Batter, Best Bowler, Top Scorer).
- 2 Scroll to the bottom of the event page and use **Upload photo** in the **PHOTOS** section to add tournament highlights. Tap any tile for a lightbox view.
- 3 Both hero images and photos are visible to everyone who opens the event — great for sharing back to your group chat.

Your hosted matches on your profile

Every local match you host appears on **/players/me** under **MY LOCAL MATCHES**. Public matches also appear on your public profile page for recruiters and captains to see.

Local matches are marked with a green **LOCAL MATCH** badge on the event page and events listing so viewers know it's an informal, non-corporate tournament.

7. Watching matches live

Every fixture in a live tournament has a **public scorecard URL** — **/live/<fixture_id>**. Share it with friends and family who don't have Kreeda Nation accounts; they'll see ball-by-ball updates streaming in real time without needing to log in.

- Click the fixture row in any event → the public Scorecard link is shown.
- Cricket matches use a **CricHeroes-style** live view: toss, playing XI, batting/bowling cards, partnerships and free-hit indicators.
- Score updates push instantly via WebSocket, with REST polling as a fallback — no manual refresh needed.

If the tournament organiser added a YouTube/Twitch stream URL, a red **WATCH LIVE** button appears at the top of the event page.

8. Mobile experience

Kreeda Nation is fully mobile-responsive. On phones / tablets the top-right **hamburger** icon opens a slide-in menu with every page you can access. Your player guide is always one tap away in the same menu under *Help*.

9. What's new — view-mode profile, Cric Heroes & native app

Profile lands in View mode by default

Open **/players/me** and you'll now see a clean, read-only version of your profile — exactly how other players see you. Click the **Edit profile** button (top-right) to flip into edit mode. Hit **Save** to flip back to

view mode. This prevents accidental edits when you're just checking your stats.

Native mobile app (coming soon)

We've published the developer API spec at **/docs/MOBILE_API.md** — our Android & iOS apps are now in active build. Your profile, fixtures, live scorecard and notifications will all be available on your phone once the apps land in the stores. Stay tuned via the public banner on **/players/profiles**.

Live scorecard polished for non-cricket sports

Football, Badminton, Tennis & Volleyball matches now use sport-specific layouts on the public **/live/<fixture_id>** page (no more raw JSON). Goals, sets, points, periods are rendered in human-friendly cards — share the link with friends and family for any sport, not just cricket.

*Need help? Email hello@kreedanation.io — we usually reply within one business day. Forgot your password? Visit **/forgot-password** (works for HR, vendors and admins) or **/players/forgot-password** for player accounts. Tip: once you sign in, this guide is one click away from the **top navigation bar** — no need to dig through the footer.*
